

## ENGEL Cutter

### Description:

The robust universal tool for DIY and professionals. With it, you can easily cut polystyrene sheets up to a thickness of 100mm. You can also use our profile cutters to insert various profiles into polystyrene sheets.

Hot cutting of Styrofoam avoids dust and static charge.

### Technical data:

Supply voltage: 230 V - 50 Hz (110 V - 60 Hz)  
 Power input: 100 W  
 Operating time: Intermittent operation 1/4min.  
 Protection class: II – Protective insulation  
 Power supply: Supply cord 3 m, with European-type plug  
 Weight: 1,0 kg

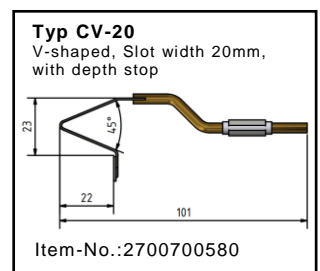

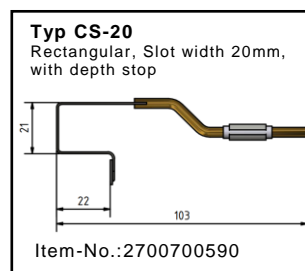

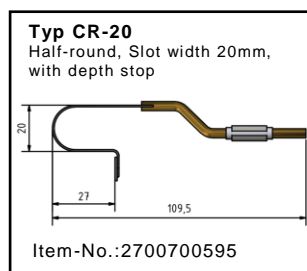

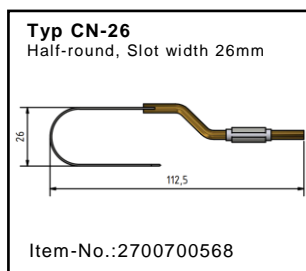

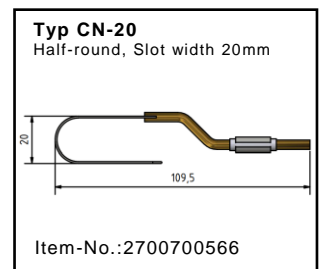

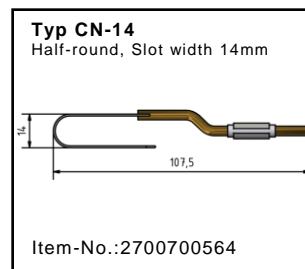

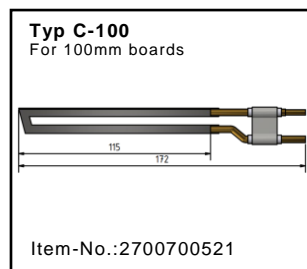

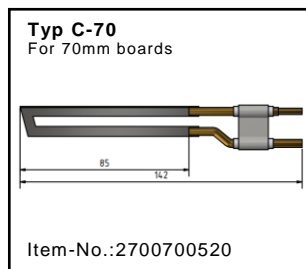

### Scope of delivery:

1x ENGEL Cutter  
 1x Cutting blade C-70, for 70mm boards  
 1x Suspension hook  
 1x Carton package (also available in a plastic case)  
 1x Operating instructions with Declaration of Conformity

ENGEL Cutter with cutting blade C-70

### Possible cutting blades:

### Adapterset H-A-Cutter

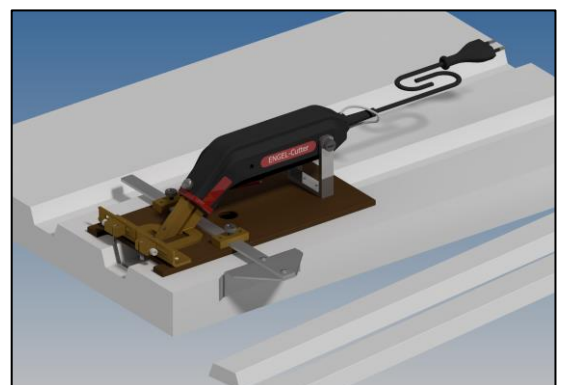

Item-No.: 7179080000

With the H-A-Cutter adapter set, you can cleanly cut grooves in your polystyrene panels. Groove widths of up to 80mm are possible, and the adapter also has a parallel stop so that grooves can be cut parallel to the board.

The adapter set can be equipped with the 5x1.0mm cutting tape. The Engel-Cutter is connected to the H-A adapter. Using flat-nose pliers, the cutting tape is bent into the desired shape and inserted into the H-A adapter. The H-A adapter set is now ready for use.

### Scope of delivery:

1x Adapterset H-A-Cutter  
 OHNE ENGEL-Cutter

H-A-Adapter mit Engel-Cutter  
 (Engel-Cutter not included in scope of delivery!)
