Accessories / Profile cut adapter

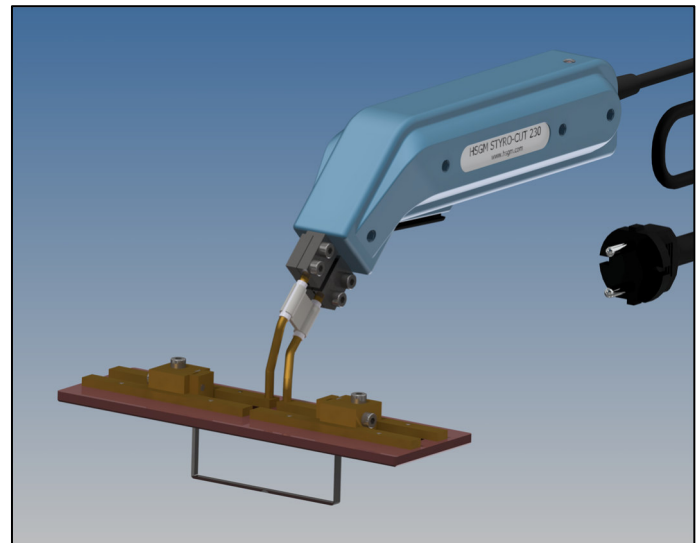

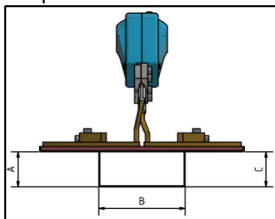

Item-No.: 7179090100

With the profile cutting adapter you can cut grooves from 20mm to 120mm wide in your material. The shape of the groove is freely configurable; to do this, you simply have to bring the cutting strip into the desired shape with a pair of pliers.

The stop plate of the adapter ensures a clean and angular cut.

The cutting band for the adapter can be ordered separately under article no. 7179080400.

The minimum length for the cutting band must be at least 100mm (A+B+C=min. 100mm) from the bottom of the adapter.
